

## ENGINEERED SYSTEMS & SERVICES

AFP Industries is a leading supplier and fabricator of motion and control systems throughout Virginia, North Carolina, South Carolina and Tennessee. We design and assemble custom systems utilizing hydraulic, pneumatic, and electrical components to meet your most challenging motion and control needs.

Our team at AFP is dedicated to delivering the ideal combination of hydraulic and pneumatic components with electrical controls to ensure precise, reliable operation of your system.

## A TOTAL SYSTEM APPROACH USING PARKER PRODUCTS

In addition to providing a substantial selection of individual hydraulic, pneumatic and electrical components for your industrial or mobile applications, AFP's in-house fabrication team specializes in creating efficient, reliable and cost-effective motion and control systems, customized to fit the precise needs of your business, no matter your industry or size of your operation.

## PARKER PRODUCTS USING AFP SOLUTIONS

We are a proud distributor of Parker-Hannifin hydraulic and pneumatic components, and use them exclusively for our custom motion and control products for our clients in Virginia, North Carolina, South Carolina and Tennessee. You can count on Parker for the highest quality motion and control products.

### Training

- Hydraulic and Pneumatic Technology
- Hose and Fitting Technology
- Mobile Motion Control (IQAN)
- Programmable Logic Controls
- Drives and Motion
- Safety
- Pneumatics

### Engineering

- Hydraulic Power Unit Design
- Pneumatic Panel Design
- Circuit Design/Layout
- Logic Programming
- AutoCad Drawings
- 3D Modeling
- Custom Panels

### Value-Add

- Bin Management
- Kitting for OEM's
- Brand Conversions
- Technical Support
- Control System Review
- Custom Tube Fabrication
- Fabrication Equipment Rental
